

## FLY RODS

Hagen's American Series Fly Rods are the best value and the best all around rods you will find. This is an American Made "No Nonsense" series of 2 and 4 piece fly rods for the serious angler that wants great equipment and a great deal. You don't have to drop a bundle to own a quality fly rod. All of Hagen's Fly Rods feature a smooth progressive action that allows you to easily make delicate short casts or powerful long casts. They load easily and put your fly where you want it. With rods ranging from 3 weights to 12 weights you will be able to "deliver the goods" no matter where you go or what you chase.

Our "Light Line" fly rods (3, 4 & 5 weights) provide enough muscle to handle nymphs and streamers on larger streams and ponds yet are delicate enough to present the tiniest dries. From selective trout to panfish they get the job done.

Our "Streamer" fly rods (6, 7, 8 & 9 weights) have all the muscle and power you need to throw big streamers, bass bugs and bead head nymphs. If you are fishing for large trout, steelhead, salmon, pike, bass or inshore fishing one of these rods will do the trick.

Our "Big Water" fly rods (10 & 12 weight) are what you need to handle big fish on big water. When you need a fly rod with plenty of power and back bone to throw big flies and land big fish, these rods will deliver!

With both 2 piece and 4 piece rods Hagen's has you covered. Our 4 piece rods are ideal for travel and easily stow in your checked baggage. There is an American Series Fly Rod for all of your fishing and travel needs.
